

Report on Star Program

Topic: Star Program

Time and Date: 13th February 2021

Venue: Govt High School, Punnal.

Description: To aware the delegates about facing an interview assertively.

IEEE VCE SB WIE AG in collaboration with Govt. high school organized a session on the theme of Career guidance and Personality development on behalf of STAR program to help students choosing a right career path and improving their personality.

As a part of the event Volunteers has went to the Govt high school, Punnal and had a session with the 50+ school students on the topic of Career guidance and Personality development.

Ms Namratha ponnamm, Chair of IEEE WIE AG Vaagdevi College of engineering has shared her knowledge on what after 10th with the students. She shared briefly about the opportunities what they have after their schooling. She also explained about how to communicate and behaviour style with others professionally.

MS Ramadevi kolipaka, chairperson of IEEE Vaagdevi college of Engineering Student Branch shared her knowledge on Personality development with the students. She gave motivation to the students to become successful in their future.

At last we have a feedback session with the students and offered some goodies to the students and appreciated their interest on the event.

Outcomes of the webinar:

School students shown great interest on the sessions and this helped them to choose a right career path and improving their personality.
