## 2.3.2 Teachers use ICT-enabled tools including online resources for effective teaching and learning:

ICT enabled teaching methods have been made available in the institute. Many classrooms are equipped with LCD projection system, Screens. These tools allow for interactive and engaging lessons, enhancing student learning experiences. Teachers can easily incorporate multimedia resources to make their lectures more dynamic and effective.

In addition to chalk and talk method of teaching, the faculty members are using the ICT enabled learning tools such as PPT, Video clippings , Audio system, online sources, to expose the students for advanced knowledge and practical learning. The Teaching-Learning Process is supported with conducting Regular Practical Sessions. This hands-on approach allows students to apply theoretical knowledge in real-life scenarios, enhancing their understanding and skills.

The faculty also organizes workshops and seminars to provide students with opportunities for interactive learning and skill development. These events often feature guest speakers from various industries who share their expertise and insights with students. This helps students gain a deeper understanding of their field of study and network with professionals in their desired career paths.

Digital Library access is provided in library hours allotted in time tables and encouraging students to take online Courses like MOOCS, NPTEL etc.
